

AUSTRALIAN BUREAU OF STATISTICS
CANBERRA

Reference No. 6.37

FOR RELEASE : NOON 3 SEPTEMBER 1976

WAGE RATES INDEXES : JUNE 1976 (PRELIMINARY)

MAIN FEATURES

- In June 1976 the weighted average minimum weekly wage rate for adult males increased by 2 cents to \$129.18. The weekly rate for adult females remained unchanged from the May 1976 level of \$119.60.
- In the twelve months ending June 1976 the indexes for both adult males and adult females increased by approximately 15 per cent compared with 18 per cent and 29 per cent respectively in the twelve months ending June 1975.

EXPLANATORY NOTES

This statement contains figures of weighted average minimum weekly and hourly wage rates and index numbers for adult males and adult females for June 1976 and corresponding figures for some earlier months. More information on these statistics will appear later in the monthly bulletin *Wage Rates and Earnings* (Reference No. 6.16) which also contains explanatory notes covering definitions, scope of the statistics, etc.

2. The wage rates used in the compilation of the indexes are the lowest rates for a full week's work (excluding overtime) prescribed for particular

occupations in awards or determinations of Federal or State industrial authorities; in collective agreements registered with these authorities; or in unregistered collective agreements where these are dominant in particular industries. Because the indexes are designed to measure movements in prescribed minimum rates of wages as distinct from salaries, those awards, etc. which relate solely or mainly to salary earners are excluded. Because of delays in the receipt of notification of changes in wage rates as well as retrospective changes to rates, figures for the latest twelve months shown are subject to revision. As such revisions are made they are published in the normal monthly tables of this statement. (See NOTE below).

3. The indexes are designed to measure trends in wage rates in current awards, etc. excluding the effects of changes in the relative importance of industries, awards and occupations. The weighted average wage rates shown in these tables are therefore indexes expressed in money terms, and do not purport to be actual current averages. Similarly, neither these weighted average wage rates nor the corresponding index numbers measure the relative levels of average current wage rates as between States or industries.

TABLE 1. - WEEKLY AND HOURLY WAGE RATES : ADULT MALES AND ADULT FEMALES
ALL INDUSTRY GROUPS, AUSTRALIA (a)

Weighted average minimum weekly rates payable for a full week's work (excluding overtime), as prescribed in awards, determinations and collective agreements; weighted average minimum hourly rates payable; and index numbers of wage rates.

(a) Figures for the latest 12 months are subject to revision. See explanatory notes above. (b) Excludes rural industry. Hourly rates also exclude shipping and stevedoring. The former is not included in the wage rates index and for the latter definite particulars for the computation of hourly wage rates are not available. (c) Excludes rural industry; mining and quarrying; and building and construction. (d) Percentage change over the same month of the previous year. These percentages may fluctuate from month to month owing to the timing of significant award changes. (e) Base : Weighted average wage rate, Australia, year 1954 = 100.

NOTE: Beginning with this issue, revision of previously published figures will be restricted to those for the last twelve months, instead of extending over 12 to 24 months as in earlier issues. Figures for July 1975 and subsequent months shown in this issue are therefore subject to revision.

TABLE 2. - WEEKLY WAGE RATES : ADULT MALES, INDUSTRY GROUPS, 30 JUNE 1976 (a)

Weighted average minimum weekly rates payable for a full week's work (excluding overtime), as prescribed in awards, determinations and collective agreements; and index numbers of wage rates.

All industry groups (g)	129.82	128.21	133.24	126.54	125.23	128.56	129.18	14.5	457.4

(a) Figures subject to revision. See explanatory notes on page 1. (b) Percentage change over the same month of the previous year. These percentages may fluctuate from month to month owing to the timing of significant award changes. (c) Base : Weighted average weekly wage rate, Australia, year 1954 = 100. (d) For mining, wage rates used are those prescribed for the principal mining centres and include lead bonuses, etc. (e) The weekly rates used in the index for occupations specified in the National Building Trades Construction Award include the weekly base rate of pay, the special allowance and the industry allowance. (f) Includes wage rates (and value of keep) for occupations in the coastal shipping service, other than masters, officers and engineers. (g) Excludes rural industry.
